

GE
Lighting

Megalight Plus +50

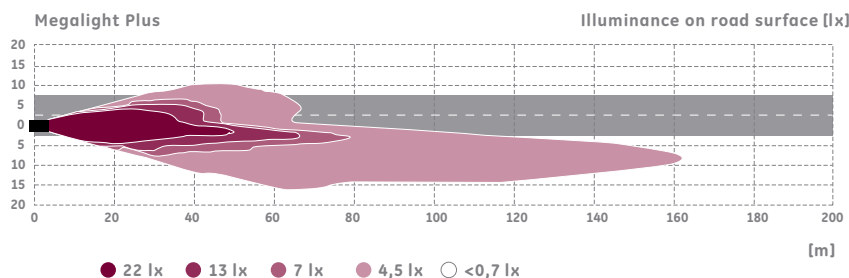

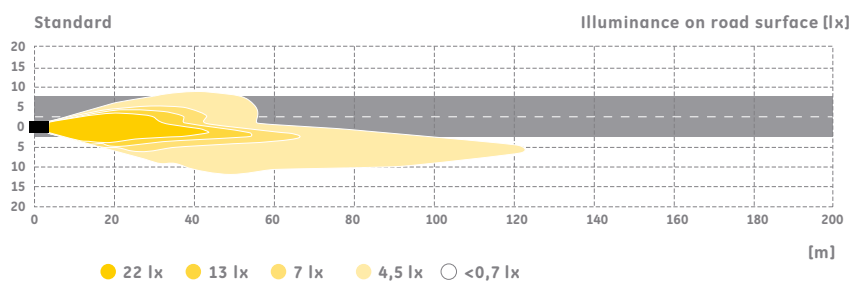

Up to 50-60% more light on the road

GE imagination at work

Up to 50-60% more light on the road

- Special high luminance lamp design
- Brighter illumination
- GE Megalight Plus lamps - thanks to their special filament design and coating system, provide up to +50-60% more light on the road thus improving illumination performance of your headlamps compared to standard halogen 12V lamps available on the market.
